Technology changes life

Intelligence creates the future

About Us

Dingdu is a scientific and technological enterprise that integrating research, development, production, sales and service. We have the strong technological foundation and years experience in quality control system in worldwide market. We are focusing on research, development and manufacturing that is relevant to tea and coffee chains, such as making smoothies, fruit, soybean milk, multi-functional food processor and catering appliances.

We obey to the principle of "quality first, customer-oriented", continuously adopt high-tech and management experience, to optimize supply chains for core components and advanced material, rising manufacturing processes and design that meet top grade standards. Our products have passed main certifications such as 3C, CE, CB, RoHS, and have multiple patented structure/appearance design with technologies to ensure product's stability, safety, and durability. Our product has been widely used in tea beverage shops, coffee chains, hotels, restaurants, and multifarious recreation centers.

We have the strong design team and advanced production producing equipment. In future, we'll closely appeal to the development trends in this field, and commit to create the most cost-effective products, thereby to provide the highest quality products and best services to our customer. We'll actively meet customers' requirement with high-quality with complete solutions and customized services. Continuously creating our advantages to all client with the product philosophy of "technological innovation and continuous improvement". And continuously strengthen the construction of the service system to provide professional, fast, comprehensive, and warm services for customers.

Our vision is to provide the high-quality products and warmest services to our customers, and do our best to establish the win-win partnership with them to create a better future.

Commercial Soundproof Blender

Model: DT-901

3

4

DT-901 (Black)

Soundproof Blender

-  6mm thickness soundproof cover
-  Durable industrial stainless steel blades
-  Industrial grade powerful motor
-  Multiple safety protection devices

Specification

Rated Power: 1500W

Rated Voltage: 220-240V/50-60Hz

Container Capacity: 1.5L

Net Weight: 8.5kg

Product Size: 220*250*460mm

DT-901 (White)

Soundproof Blender

-  6mm thickness soundproof cover
-  Durable industrial stainless steel blades
-  Industrial grade powerful motor
-  Multiple safety protection devices

Specification

Rated Power: 1500W

Rated Voltage: 220-240V/50-60Hz

Container Capacity: 1.5L

Net Weight: 8.5kg

Product Size: 220*250*460mm

Advantages

Feature

- ① Morden stylish design
- ② FDA grade material, safety for using
- ③ Industrial grade powerful motor, more durable
- ④ Patented structure design, more silent
- ⑤ Microswitch/Overheating/Overcurrent safety devices
- ⑥ Timing adjustment function, easier to operating for various ingredients

Multifunctional Blender

Model: DT-T216	Model: DT-T219
----------------	----------------

Power: 1300W	Power: 1500W
--------------	--------------

Rated Voltage: 220-240V/50-60Hz

Container Capacity: 2L

Blade Material: Stainless Steel

Net Weight: 6.5kg

Product Size: 216*230*495mm

Feature

- ① Morden stylish design
- ② FDA grade material, safety for using
- ③ Industrial grade powerful motor, more durable
- ④ Patented structure design, more silent
- ⑤ Microswitch/Overheating/Overcurrent safety devices

Multifunctional Blender

Model: DT-A20	Model: DT-A290
---------------	----------------

Power: 1300W	Power: 1500W
